PROFESSIONAL SUMMARY

Technical program leader with **23+ years** in banking and telecom. Led API and microservices platform change, digital banking delivery and global programs involving **200+ people**. Brings release planning, dependency resolution, Agile delivery, PMO setup and commercial oversight across business, engineering and operations, complemented by self-directed AI prototypes.

CORE CAPABILITIES

Technical delivery: Technical Program Management (TPM); project planning, cross-team dependencies, platform migration, API integration and release readiness.

Governance: Project Management Office (PMO) setup; steering committees (SteerCo); target operating models; risks, assumptions, issues and dependencies (RAID); RAG reporting.

Methods: SAFe, Scrum and Kanban; Waterfall and hybrid delivery; PI Planning; formal change control.

Commercial & controls: Budget and P&L oversight; margins, burn rate and cost-to-serve; vendor governance, SOW/SLA/MSA, invoicing and managed services; KYC/AML, TPRM and GDPR/ISO 27001-aware delivery.

PROFESSIONAL EXPERIENCE

CAPCO TECHNOLOGIES | Transformation Manager

Apr 2018 - Oct 2025

Agile & regional delivery | Portfolios up to \$10M+ | APAC and EMEA

HSBC | Project Engine - Fund Order Routing

Mar 2024 - Oct 2025

- Managed API and microservices delivery for the FundSettle-to-Clearstream Vestima migration within a **200+ member program**; directed reconciliation and data validation.
- Coordinated delivery across India, UK, Hong Kong, Malaysia, Philippines and Vietnam; used root cause analysis (RCA) and remediation plans to resolve dependencies and maintain business continuity.
- Automated recurring status consolidation with Microsoft Copilot, reducing manual work on SteerCo packs and RAG updates.

Deutsche Bank | Third-Party Risk Management - DB Investment Partners

Feb 2023 - Dec 2023

- Led the business-transformation workstream in a 120-member global program moving TPRM to Ariba with the Wipro TPRM framework, replacing manual assessments with automated workflows.
- Resolved cross-team dependencies through global SteerCo forums; standardised exception handling and control checkpoints, helping reduce vendor-risk review time.

Credit Suisse | Integrated Wealth Management (IWM 3.0) & Private Banking

Nov 2020 - Oct 2022

- Led a **40-member** development and delivery team (32 India, 8 Austria) on JavaScript, API and microservices platforms; managed escalations, parallel workstreams, schedule and budget.
- Managed changes budgeted at CHF 10K-400K through formal change control, reducing platform fragmentation and reconciliation overhead across wealth and private banking.

Bangkok Bank | Regional SAP AML Rollout

Mar 2020 - Nov 2020

- Led SAP AML transformation and adoption in Japan and Vietnam; coordinated user acceptance testing (UAT) against FATF and local requirements. The post-implementation review had no regulatory findings.

HSBC | FCR-IT KYC New Generation Workflow

Jul 2018 - Dec 2019

- Led **50 people** across **eight pods** delivering PEGA Customer Due Diligence for corporate customers; individual requirements of GBP 10K-200K, aligned to global and local KYC / AML requirements.
- Coached pod leads on governance and RAID/RAG reporting; enforced control checkpoints and led compliance-stakeholder engagement and SteerCo reporting.

Agile delivery across HSBC KYC and Credit Suisse: PI Planning and Scrum ceremonies; user stories, team coaching, and velocity and flow metrics.
